

In the 1930s MG, more than any other make of car, made sports car motoring available to thousands. Introduced in 1936, the T-Series carried the process forward another stage, turning MG into a bestseller both in the USA and the UK, and laying the foundations for the MGAs, MGBs and Midgets that followed. Here, the full story is told, including where and when they were built and all the facts and figures, as well as insights into the people and the company that produced these true classics.
