MG

from

A to Z

Jonathan Wood

**MG from A to Z** is much more than yet another book about the world's best-loved sports cars. Instead, it takes the reader on an encyclopedic journey to meet the people behind the magic of MG, the places where they created the MG legend, and the way they went about building a sales phenomenon with affordable and enjoyable cars on the back of racing and record-breaking achievements.

**MG from A to Z** is a book to pick up again and again, to discover the real stories behind the story of MG, and to answer all the questions you always wanted to ask but never quite knew how. Such as:

- What is the name of the world's fastest MG?
- What brew of beer is named after a prototype MG?
- Who was the artist who created the MG octagon?

These are just three amongst thousands of MG facts and figures that fill the pages of this book, a book which will delight MG enthusiasts everywhere. A book that reveals all those 'Well, I would never have guessed!' stories about **MG from A to Z**.
