

THE MGA, MGB AND MGC

GRAHAM ROBSON

COLLECTOR'S GUIDES

Written by carefully chosen authors, designed to a uniform format, extensively illustrated, packed with deeply researched reference material and produced as a high-quality and conveniently-sized package, these books offer car enthusiasts generally, and owners and collectors in particular, a growing reference library in the classic and quality-car fields. Each is devoted to a range of models within a marque rather than to a manufacturer's entire range, the subjects in each case being chosen for their proven wide appeal and the special interest they evoke amongst discerning car enthusiasts.
