MAKING MGs

John Price Williams

VELOCE AUTO-ARCHIVE SERIES

From MGA to MGF, here's the illustrated story of how the classic MGs were built. Most of the pictures were taken at MG's famous Abingdon factory, and show just how skilled and dedicated workers put MGs together before the advent of robot car production. Modern pictures of the MG RV8 and MGF bring the story up-to-date.

Concise text describes production processes and model evolution. Coverage includes factory road testing and production figures.

Featured MGs include MGA, Magnette, Midget, MGB, MGC, MGB GT V8, MGF.
