INSIDE THE OCTAGON • THE STORY OF THE

1921  1945

Witness the evolution of a legend; the birth of a British icon that was to take on and beat the best the world had to offer, the MG. Relive a part of history from MG's humble beginnings in Oxford England, through the glory days of the internationally famous and world record breaking "baby cars" and on to World War II when the factory was used for wartime production. Interviews from Jean Cook (daughter of Cecil Kimber), the late John Thornley O.B.E (founder member of the MG Car Club) and W.E. "Wilkie" Wilkinson (former racing driver and mechanic) give in-depth analysis of the events surrounding the MG Car Company from 1921 - 1945.
