

Classic Engines, Modern Fuel

The Problems, the Solutions

Paul Ireland

What does modern fuel do to your classic engine?

A compilation of Paul Ireland's popular science articles. Based on in-depth research carried out at Manchester University, and featuring real data and practical descriptions, the collection investigates how classic engines respond to modern petrol/gasoline. Paul Ireland's years of experience and no-nonsense scientific approach will help you get the best from your classic car – so you will be able to experience the pleasure of driving instead of worrying about breaking down!
